Welcome and introductions- Same members as attended the Stroke PI Committee meeting. October 11th meeting minutes adopted as written.

Presentation- Paul Gorski gave a presentation to the group about the direction the PI committees are headed and changes in the way the committee is going to be addressing the data collection and analyzing the results of the data to ensure the committee is being more productive and proactive in providing feedback from the data collection.

Data collection will begin with a single project and continue to take little steps toward the goal of what the PI committees are trying to adopt and be better utilized in the region.
