Jurisdiction / Agency	Guest's Name		Guest's Name	
Norfolk General				
Sentara Leigh/Sentara Healthcare				

- Welcome/Introductions /Adoption of December 2015 EMS PI Committee Minutes:
Minutes approved as written.

- Old Business:

Lasix Data Review Hospital Update:

Lasix will eventually be removed from the protocols. The group discussed in detail a better method disseminating action items

Travis Mitchell with volunteers from the group will put together a timeline and plan of action for future data sets to review. Concern about the length of time that it took to collect review and forward recommendations with the Lasix issue and try and consolidate and shorten the length of time that it will take for future items. Need to streamline the process and ensure the timeline is shortened.

No clear direction from the group or from the office of EMS. The Virginia Office of EMS requires the committee and charges the committee with reviewing of the cases that are sent in for a regional review. Coming together meeting and no clear direction of where we are going and headed. Travis will put together some ideas for the group and at the next meeting review the ideas and refocus the EMS PI committee for the future meetings and develop a plan to move forward with a new plan and focus..

Moving forward the group will look at drop box or office 365 to keep topics in the forefront.

○ New Business:

i. Discussion about Performance Indicators in Protocols:

Tabled until the next meeting

ii. Next Data Set to Review

The group want to look at capnography literature, trends and product uses. The group should focus on the use of capnography in the future. Review the literature and develop specific things regarding the use of capnography for the differing disease processes and what we should be reviewing and collecting data to support the ongoing and future ses of capnography.

Identify the latest and greatest and recommend the uses of the differing product to the OMD of your agency in the future to support the use of the products.

Dates to remember located at www.tidewaterems.org

The next meeting of the EMS Quality Improvement Committee will be:

April 14, 2016 @ 1630

TEMS Office- 1104 Madison Plaza Chesapeake, VA 23320
